COR Appointment Memorandum

20 December 2007

MEMORANDUM

SUBJECT: Appointment as a Work Assignment Contracting Officer's Representative (COR)

under Contract Numbers GS-00F-0019L

FROM: Gloria Kane /s/

Contracting Officer

TO: Paul Peronard

Task Order COR

I hereby appoint you as a Task Order COR under the subject contracts. This appointment is effective as of the date of this memorandum and shall expire: 1) when the contract is completed, 2) when you are relieved of your COR responsibilities, or 3) when rescinded in writing by myself or any successor contracting officer (CO). You may not delegate your COR responsibilities.

As a Task Order COR you are a key player in protecting the Government's interests and carrying out the Government's obligations under the contract. To do so effectively, it is imperative that you are familiar with the contract terms and conditions, as well as your responsibilities and limitations as a COR. You are hereby authorized and put under obligation to carry out those responsibilities set forth in Attachment 1. You are not authorized to take any action which is not set forth herein, and are specifically directed not to take any of the prohibited actions set forth in Attachment 2. Further clarification of these responsibilities and prohibitions may be obtained from the CO. Any act on your part which is not within the scope of this appointment may lead to your personal financial liability to the contractor.

The contract-level COR (project officer) for Contract #GS-00F-0019L, is Barbara Nelson. If you have any questions concerning your delegated authority, please do not hesitate to contact Ms. Nelson or me at 202-564-4437, or e-mail me at kane.gloria@epa.gov.

cc: Barbara Nelson

Denise Baker

Attachment 1 to the COR Appointment Memorandum

As a TO COR under Contract GS-00F-0019L, Paul Peronard, you are responsible for the following:

1. Maintaining Your COR Eligibility

- a. Remain current on all training required for CORs in Chapter 42 of the Contracts Management Manual. (The CMM can be found on the Agency Intranet at http://epawww.epa.gov/oamintra/policy/cmm.pdf.) Specifically, you are required to complete the Recertification Course every three years after completing either the COR Mentor Course or the COR Supplement Course, whichever was completed later. If your training lapses, you are no longer eligible to be a COR under this contract.
- b. If your training lapses or if there is a need to relieve you of your COR responsibilities, please notify the CO immediately. Until another COR is appointed, you remain responsible for performing your COR functions. Promptly turn over all records regarding this contract to the successor COR.
- c. Know the terms and conditions of the contract and the work assignment, including the statement of work and the approved work plan.
- d. Be informed about Agency and Federal acquisition policies and procedures. This information is available on the Office of Acquisition Management's Intranet site at http://intranet.epa.gov/oamintra/. The Federal Acquisition Institute's COR Workbook provides a generic list of COR functions and the steps involved in performing these functions. The COR Workbook can be downloaded at http://hydra.gsa.gov/staff/v/homepages/corbook.htm. Chapter 7 of the Contracts Management Manual (CMM) contains a list of Agency-specific COR functions.
- e. Comply with the standards of conduct that apply to employees of the executive branch. Treat contractors fairly and impartially. Avoid personal conflicts of interest, and prohibited activities, such as unauthorized commitments, directed subcontracting, and personal services. While you are a COR, you must file Office of Government Ethics Form 450, Confidential Financial Disclosure Report, with your organization's Deputy Ethics Official.

2. Procurement Package

To order work under the contract, prepare a procurement request with supporting documentation (SOW, cost estimate, etc.). Identify vulnerable, sensitive services, potential conflicts of interest, as well as appropriate management controls.

3. Government Property

In accordance with Chapters 2 and 5 of the Contracts Management Manual (CMM), identify and justify the use of any Government property under the work assignment. In accordance with Chapter 5 of the CMM, properly transfer, monitor the use and disposal of Government property under the contract. Coordinate Government property issues with the CO and property administrator.

4. Technical Assistance

- a. Review contractor work plans for approval/disapproval. When requested, prepare detailed findings and recommendations on reasonableness of the proposed work, labor hours and mix, materials and quantities, etc., based on comparison with the SOW and the independent Government cost estimate. In accordance with Chapter 16 of the CMM, conduct evaluations of offers received under multiple award contracts.
- b. Inform the CO of any potential or real conflicts of interest which may arise under the contract. Recommend possible mitigation or avoidance strategies.

5. Record Keeping

- a. Establish and maintain a separate file for documents and correspondence pertaining to the contract/ work assignment. Place in this file correspondence to and from the contractor, work associates, and contracting officer; comments and approval of deliverables; documentation of verbal communication with the contractor; technical direction; voucher reviews and disapprovals/approvals; contractor evaluations; and other documents pertaining to the contract. Document actions, conversations, meetings, technical directions, etc., as they occur and include these in the file.
- b. Protect information that is prohibited from disclosure by law, such as trade secrets and privileged or confidential commercial or financial information, certain interagency and intraagency predecisional deliberative communications, information about individuals when disclosure would constitute a clearly unwarranted invasion of personal privacy, and records or information compiled for law enforcement purposes, if certain interests would be harmed by release, including when disclosure could reasonably be expected to interfere with enforcement proceedings or to constitute an unwarranted invasion of personal privacy.

6. Monitoring Contractor Performance

- a. In accordance with EPA Order 1900.1A, Proper Use of Contractor Services, and the terms of the acquisition, provide and document technical direction to the contractor. Guard against inappropriate contractor services, such as personal services and inherently Governmental functions.
- b. Assist the contractor in interpreting technical requirements. Differences of understanding or opinion of technical requirements between the Government and the contractor

which cannot be resolved shall be referred to the CO for resolution.

- c. Monitor and oversee the contractor's technical effort and ensure that performance strictly conforms with the terms and conditions of the contract. Promptly inform both the contractor and the CO of any unsatisfactory performance or noncompliance with the contract or work assignment statement of work and terms and conditions.
- d. Maintain reasonable contact with the contractor so as to become aware of and gain an understanding of any problems or potential problems regarding contract performance. Report these to the CO.
- e. Review and provide input/recommendations and concurrence to the CO regarding the contractor's proposed use of consultants and subcontractors.
- f. Perform on-site surveillance of contractor performance, as necessary, to ensure compliance with the technical provisions of the contract.
- g. Spot check to see that contractor personnel are on the job and accomplishing their assigned tasks.
- h. Determine causative factors for any slippage in performance schedule and provide a report of such to the CO. If the contractor is responsible for the slippage, the COR shall recommend to the CO and subsequently monitor corrective action.

7. Inspection and Acceptance of Deliverables

- a. Ensure the timeliness and acceptability of all deliverables and/or reports submitted by the contractor.
- b. Perform inspection of completed work and/or services and certify acceptance or nonacceptance of work.

8. Past Performance

Complete a contractor evaluation form for each work assignment at the end of each period of performance (base or option periods), and forward it to the contract-level COR.

9. Modifications

a. Prepare purchase request for amendments to the work assignment, including appropriate documentation, such as a revised SOW and cost estimate. Document evaluation of the contractor's proposal (e.g., of the labor hours, materials, etc., incurred or proposed for the modification).

b. Ensure that the work assignment is formally modified or amended before the contractor proceeds with any changes in the work, terms, or conditions of performance.

10. Payment

- a. As detailed in Chapter 6 of this manual, review contractor invoices and recommend approval or disapproval, as appropriate, to the contract-level COR. Such review shall be completed in a manner so as to allow timely payment under the Prompt Payment Act.
- b. Track funds expended versus funds remaining on the work assignment. Ensure that costs do not exceed available funding. Notify the contract-level COR if additional funds will be required. Prepare funding requests.
- c. Progress Reports--Review monthly technical and financial progress reports. Compare progress to contractor invoice charges. Resolve errors or deficiencies in the reports. Consult with the contract-level COR on any potential problems identified through such reviews. Monitor contractor costs and promptly report, in writing, wasteful contractor practices to the contract-level COR.
- d. Review invoices and monthly progress reports to ensure that the contractor utilizes the labor skill mix (labor categories and hours) necessary to fulfill the Government's requirement. The contractor's labor skill mix used on the work assignment, should closely approximate what was agreed to in the approved work plan. Excessive used of either lower or higher skilled labor should trigger a closer review of actual usage versus the approved work plan.

11. Closeout

Notify the contract-level COR when contractor performance is completed under the work assignment, delivery order, or task order. Assist with closeout procedures.

Attachment 2 to the COR Appointment Memorandum

PROHIBITIONS

As a contracting officer's representative:

- 1) DO NOT solicit proposals for enhancements to the contract;
- 2) **DO NOT** modify the stated terms of the contract;
- 3) **DO NOT** sign supplemental agreements (i.e., contract modifications);
- 4) **DO NOT** issue instructions to the contractor to start or stop work;
- 5) **DO NOT** request that the contractor perform work outside the scope of the contract or work assignment, or perform any work without a valid work assignment if work is initiated under the contract through these means;
- 6) **DO NOT** direct changes to:
 - what items are included in the delivery schedule,
 - time of delivery,
 - place of delivery,
 - method of shipment,
 - packing of deliverables,
 - quantity, or level-of-effort,
 - scope of work, drawings, designs, specifications, or statement of work.
- 7) **DO NOT** give guidance to the contractor, either orally or in writing, which might be interpreted as a change in the expressed scope, specifications, terms or conditions of the contract or work assignment;
- 8) **BO NOT** make any changes that will affect the duration (period of performance) of the contract or work assignment;
- 9) **DO NOT** make any changes that will affect the cost of the contract or work assignment;
- 10) **DO NOT** authorize the contractor to incur costs in excess of the estimated costs or other limitation on costs or funds set forth in this contract or work assignment;
- 11) **DO NOT** approve items of cost not specifically authorized by the contract or work assignment;
- 12) **DO NOT** render a decision on any dispute or any question of fact under the Disputes

Clause of the contract;

- DO NOT take any action with respect to termination of the contract, except to notify the CO of circumstances which would appear to warrant such action;
- 14) DO NOT authorize delivery or disposition of Government-furnished property;
- DO NOT discuss procurement plans or any other advance information that might provide preferential treatment to one firm over another (The Program Manager's Guide For Communicating With Industry," dated September 4, 2001 provides general guidelines regarding the types of info that may be shared with the public, primarily in the context of procurement opportunities. This guide is available on OAM's website at http://epawww.epa.gov/oamintra/policy/pmgci.pdf);
- 16) **DO NOT** make commitments or promises to any contractor relating to the award of a contract.
